

- Troncatrice monotesta con lama a scomparsa uscita frontale ed inclinazione automatica; taglio 45°-90°-135°
- Single head cutting-off machine with retractable blade with automatic blade advancement and 45°-90°-135° inclination
- Tronconneuse a une tete avec lame escamotable a inclinaison et avancement de la lame automatique; coupe 45°-90°-135°
- Tronzadora monocabezal con disco escondido de inclinación y avance de disco automático; corta 45°-90°-135°

Mod. TR/450-S

## DESCRIZIONE

Troncatrice monotesta con lama frontale a scomparsa, ad inclinazione ed avanzamento automatico. Realizzata per eseguire tagli a 45°-90°-45° e gradazioni intermedie su profili in alluminio e PVC.

## SPECIFICHE TECNICHE

### - Mod. TR/450-S

Lama Ø 450mm  
Lubrificazione pneumatica  
Morse pneumatiche  
Avanzamento lama automatico  
Inclinazione testa automatico  
Gradi intermedi da pulsantiera

## DOTAZIONI

Lama Ø 450mm  
Tanica lubrificazione  
Manuale di servizio  
Chiavi di servizio  
Carter lama  
Filtro aria  
Pistola aria

## OPTIONAL

Kit morse verticali  
Supporto profili:  
-lato carico (mod. Rolly)  
-lato scarico (mod. Velox)

## DESCRIPTION

Single head cutting-off machine, retractable blade, with automatic inclination and advancement blade.- Designed for 45°-90°-45° cuts and intermediate degrees on aluminium and PVC.

## TECHNICAL DATA

### - Mod. TR/450-S

Blade Ø 450mm  
Pneumatic lubrication  
Pneumatic vices  
Automatic advancement blade  
Automatic head inclination  
Intermediate degrees on console

## EQUIPMENT

Blade Ø 450mm  
Lubrication bottle  
Instruction manual  
Set of spanners  
Protective carter  
Air filter  
Air gun

## OPTIONAL

Kit vertical vices  
Profile support:  
-side loading (mod. Rolly)  
-side downloading (mod. Velox)

## DESCRIPTION

Tronconneuse à un tête avec la lame frontal escamotable. Inclinaison et avancement automatique. Réalisée pour exécuter des coupes a 45°- 90°- 45° et degrés intermédiaires sur des profils en aluminium et PVC.

## DONNEES TECHNIQUES

### - Mod. TR/450-S

Lame Ø 450mm  
Lubrification pneumatique  
Etaux pneumatique  
Avancement de la lame automatique  
Inclinaison de la tête automatique  
Degrès intermediaires avec console

## EQUIPEMENT

Lame Ø 450mm  
Bouteille lubrification  
Manuel d' instruction  
Clès de service  
Protection zone de coupe  
Unité de conditionnement de l'air  
Pistolet à air

## OPTIONAL

Kit étaux vertical  
Support profils:  
-chargement (mod. Rolly)  
-dechargement (mod. Velox)

## DESCRIPCION

Tronzadoras mocabezal con disco frontal, escondido. Inclinación y avance automática. Creada para realizar el corte 45°-90°-45° y grados intermedios sobre perfiles en aluminio e PVC.

## DATOS TECNICOS

### - Mod. TR/450-M

disco Ø 450mm  
Lubrificación neumática  
Morsas neumáticas  
Avance de disco automático  
Inclinación de cabeza automático  
Grados intermedios da plancha

## EQUIPAMIENTOS

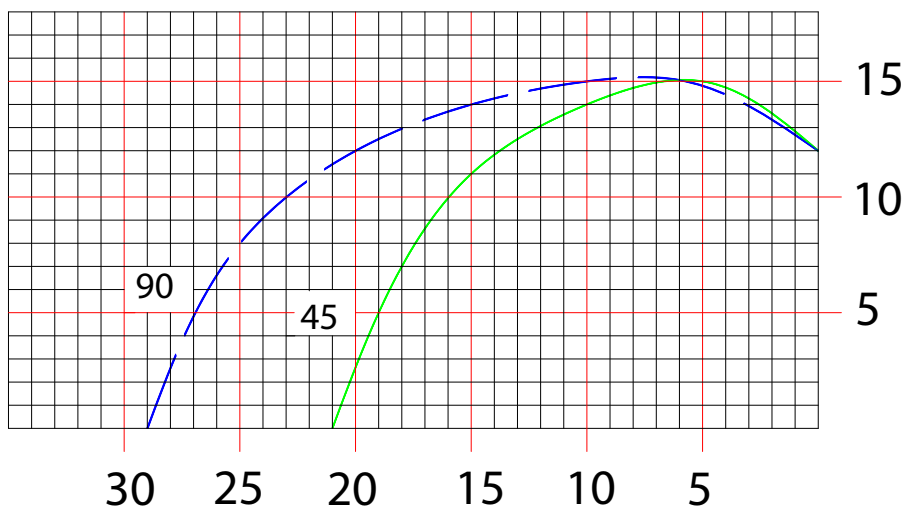

Disco Ø 450mm  
Botella de lubricación  
Manual de servicio  
Llaves de servicio  
Carter de seguridad  
Filtro de area  
Pistola de area

## OPTIONAL

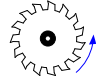

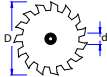

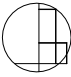

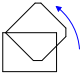

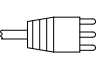

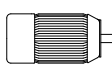

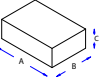

Kit morsas vertical  
Soporte profiles:  
-Cargo (mod. Rolly)  
-Descargo (mod. Velox)
